

# The L8 Folding Electric Bicycle with LiFePO4 battery

## Key Statistics

200w geared brushless motor  
36V 8AH LiFePO4 battery  
Up to 40km range\*  
23kg including battery  
20" wheels

## About LiFePO4 batteries

Lithium Iron Phosphate (LiFePO4) is the latest development in Lithium batteries. This composition has been proven to be the safest and most reliable Lithium battery. It is rated for over 1,000 deep recharge cycles. The long life of LiFePO4 translates to a much lower total cost of ownership of the bike if you factor in the cost of a replacement battery.

## Electric Bikes Oz

Importers and distributors of quality electric bicycles.

The latest addition to the range of quality electric bicycles from Electric Bikes Oz, the L8 is a versatile bike for people on the go.

The key to the L8's appeal is its simplicity. It is simple to fold and unfold, and even simpler to ride and enjoy.

The L8 will tuck neatly away in a cupboard or easily stow away in your car boot, boat or motor home. It unfolds in seconds so you can be up and running quickly and easily. When finished you simply undo two locking clamps and the bike is folded and ready to stow away.

**Easy.** Takes less than 30 seconds to fold or unfold. Easy operation with twist throttle and pedal assist lets you concentrate on riding and having fun rather than operating the bike.

**Light and compact.** Weighs only 23kg including battery. Pedals fold inwards for easy of stowing.

**Comfortable.** Wide, sprung seat and front suspension for a comfortable ride.

**Leading edge.** 36V LiFePO4 battery locks into the frame for security and is rated for over 1,000\* deep recharge cycles

**Reliable.** Front V-brake and Rear mini-drum brake for sure stopping and ease of operation and maintenance.

**Strong.** 200w geared brushless motor provides excellent hill climbing ability when coupled with 36V LifePO4 battery.

The L8 is perfect for people who need an easily accessible alternative form of transport that takes up very little space. It is great for motor homes or boats where you might want that extra mobility when you get to your destination. It can also help you to overcome parking problems in the city or for special events – just park where it is convenient and use the L8 to get to where you need to go.
